

Northwest Orthopaedic Specialists MRI Self-Disclosure Notice

As a valued patient of Northwest Orthopaedic Specialists, we are happy to provide you with information regarding access so you can make an informed decision regarding your orthopaedic care.

You have choices when selecting an imaging provider to perform your MRI. For your convenience, the doctors of Northwest Orthopaedic Specialists own and operate a quality imaging unit, centrally located at our downtown office at 601 West Fifth Avenue.

We have also provided you with alternative imaging facilities for you to choose from to perform your MRI. The listing on the back of this card informs you about alternative imaging facilities but is not intended as an endorsement or recommendation of providers. If you select one of the imaging providers listed on the back, please refer directly to that provider to schedule your MRI.

At Northwest Orthopaedic Specialists, our doctors and staff are committed to delivering compassionate, specialized orthopaedic care. If you have any questions about selecting an imaging provider, or for further information on our MRI service, please contact us for assistance.

Sincerely,

The Doctors and Staff of Northwest Orthopaedic Specialists
